1. PURPOSE

RLX Operating Company Pty Limited (RLX) holds an Environment Protection Licence with the NSW Environment Protection Authority (EPA) for Central Tablelands Livestock Exchange (CTLX). As per the *Protection of the Environment Operations Act 1997* (the POEO Act), the holder of an Environment Protection Licence must prepare, keep, test and implement a pollution incident response management plan (PIRMP) that complies with Part 5.7A of the POEO Act in relation to the activity to which the licence relates.

If a pollution incident occurs in the course of an activity so that material harm to the environment (within the meaning of section 147 of the POEO Act) is caused or threatened, the person carrying out the activity must immediately implement this plan in relation to the activity required by Part 5.7A of the POEO Act.

A copy of this plan must be kept at the licensed premises, or where the activity takes place in the case of mobile plant licences, and be made available on request by an authorised EPA officer and to any person who is responsible for implementing this plan.

Parts of the plan must also be available either on a publicly accessible website, or if there is no such website, by providing a copy of the plan to any person who makes a written request. The sections of the plan that are required to be publicly available are set out in section 74 of the Protection of the Environment Operations (General) Regulation 2022.

2. SCOPE

This PIRMP covers the CTLX site at 4860 Mid Western Highway, Carcoar NSW 2791 which operates under Environmental Protection Licence No. 12630.

3. DEFINITIONS

Pollution incident means an incident or set of circumstances during or as a consequence of which there is or is likely to be a leak, spill or other escape of deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on premises, but it does not include an incident or set of circumstances involving only the emission of any noise.

A pollution incident is required to be notified if there is a risk of 'material harm to the environment', which is defined in section 147 of the POEO Act as:

- a) Harm to the environment is material if:
 - i. It involves actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial, or
 - ii. It results in actual or potential loss or property damage of an amount in aggregate, exceeding \$10,000 (or such other amount as is prescribed by the regulations), and
- b) Loss, including the reasonable costs and expenses that would be incurred in taking all reasonable and practicable measures to prevent, mitigate or make good harm to the environment.

Notification is required even where 'harm to the environment is caused only in the premises where the pollution incident occurs', as specified in 147(2).

4. DETAILS

ENVIRONMENTAL PROTECTION LICENCE DETAILS

Name of licensee:	RLX Operating Company Pty Limited (ABN: 90 129 963 935)
EPL number:	12630
Premises name and address:	Central Tablelands Livestock Exchange 4860 Mid Western Highway, Carcoar NSW 2791
Company or business contact details:	Address: Level 4, Suite 20, 717 Bourke St, Docklands VIC 3008 Phone: 1300 709 919 Email: enquiries@rlx.com.au
Website address:	www.rlx.com.au
Scheduled activity/activities on EPL:	Livestock intensive activities
Fee-based activity/activities on EPL:	Animal accommodation

5. POLLUTION INCIDENT – PERSON(S) RESPONSIBLE

EMERGENCY CONTACTS

PIRMP activation – Primary Contact	Name: Stuart Redfern Position: Business Manager, CTLX Business hours contact number: 0427 995 381 After hours contact number: 0427 995 381 Email: Stuart.Redfern@rlx.com.au
Notifying relevant authorities	Name: Steven Fox Position: Environment & Sustainability Manager Business hours contact number: 0460 368 115 After hours contact number: 0460 368 115 Email: steven.fox@rlx.com.au
Managing response to pollution incidents	Name: Stuart Redfern Position: Business Manager, CTLX Business hours contact number: 0427 995 381 After hours contact number: 0427 995 381 Email: Stuart.Redfern@rlx.com.au

6. NOTIFICATION OF RELEVANT AUTHORITIES

RELEVANT AUTHORITIES	CONTACT NUMBER(S)
EPA NSW	131 555
Fire and Rescue NSW / Rural Fire Service	000*
NSW Health	(02) 9391 9000
SafeWork NSW	131 050
Blayney Shire Council	(02) 6368 2104

* The 000 number shall be contacted for emergency situations. For non-emergency situations, notification shall be made in writing to firesafety@fire.nsw.gov.au.

7. NOTIFICATION OF NEIGHBOURS AND THE LOCAL COMMUNITY

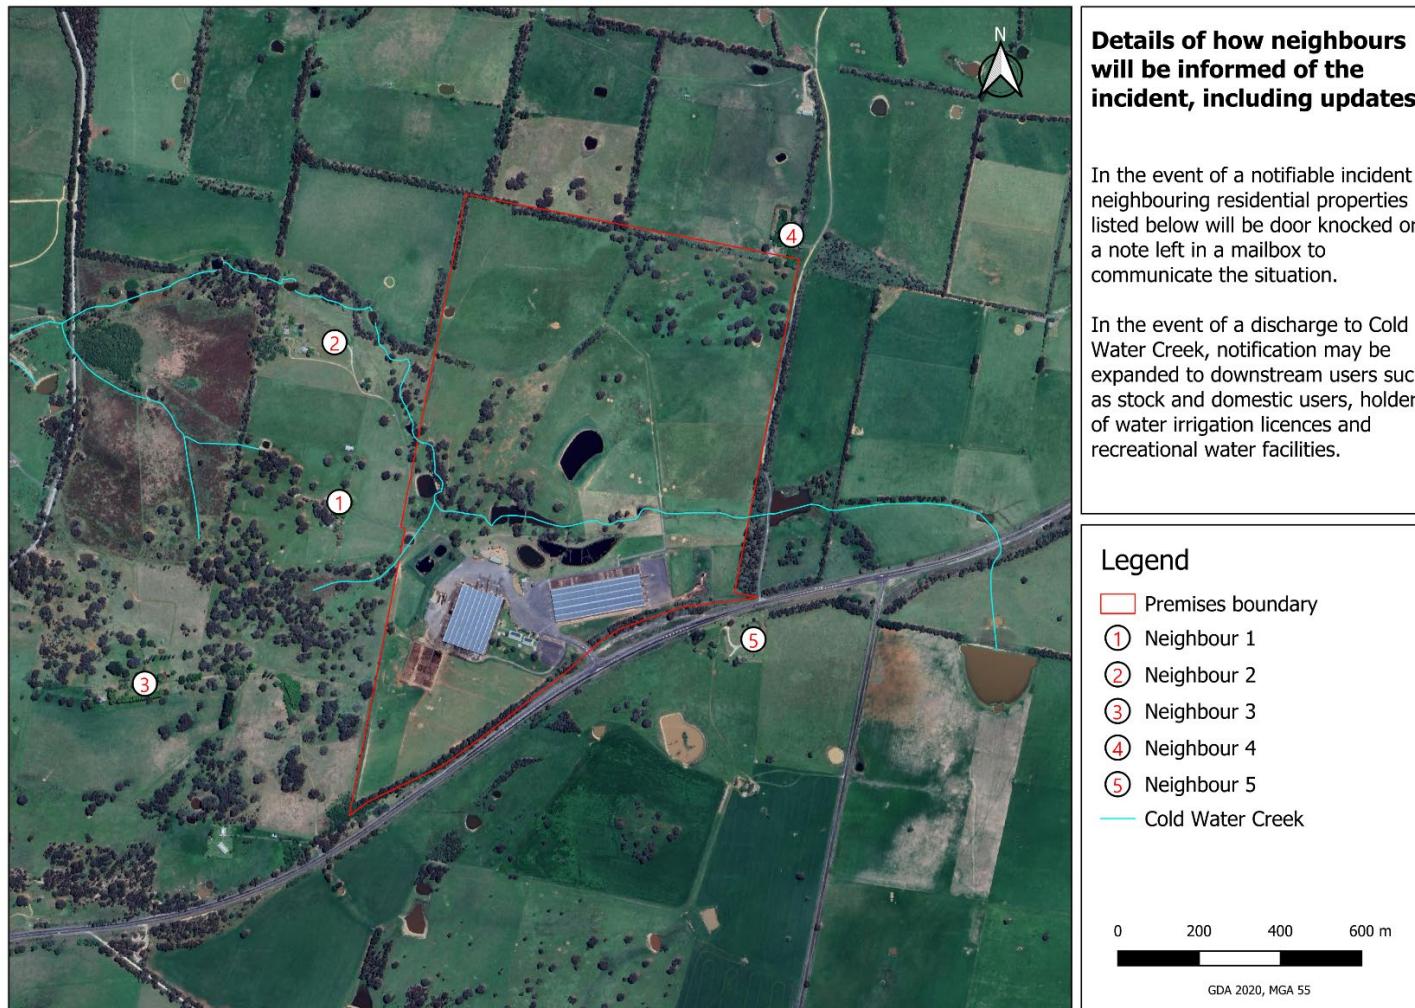

Figure 1 – Premises neighbour notification map

8. DESCRIPTION OF LIKELIHOOD OF HAZARDS

POTENTIAL HAZARD	LIKELIHOOD
Surface run off from effluent irrigation to surface waters	Medium
Failure to contain effluent treatment system water	Low
Failure to contain sheep & cattle waste materials	Low
Contamination of surface water wetland	Low
Chemical leak of spill contaminating the environment and / or injury to personnel	Low
Fuel leak or spill contaminating the environment and / or injury to personnel	Low
Fire – Bushfire destroying infrastructure and / or injury to personnel	Low
Fire – Combustible hay destroying infrastructure and / or injury to personnel	Low
Fire – Kitchen fire destroying infrastructure and / or injury to personnel	Low
Fire – Vehicle Fire destroying infrastructure and / or injury to personnel	Low
Gas – uncontrolled release of gas destroying infrastructure and / or injury to personnel	Low

9. RE-EMPTIVE ACTIONS TO BE TAKEN

Specific pre-emptive actions for the corresponding hazards identified in the earlier section:

- a) Provision of a dedicated chemical storage area with bunding and spill containment kits.
- b) Provision of dedicated fuel storage area with bunding and spill containment kits.
- c) The property boundary fence to be kept mown and clear of debris.
- d) Regular monitoring of stored hay / fodder for heat.
- e) Ensure the kitchen has sufficient appropriate fire extinguisher and fire blanket.
- f) Ensure fire extinguishers are located at strategic points within the site.
- g) Smell check for gas leaks
- h) Ensure sheep and cattle waste area is appropriately managed in accordance with the solids management procedure.
- i) Regular monitoring of effluent treatment system in accordance with the effluent management procedure.
- j) Effluent irrigation to be performed in accordance with the effluent management procedure.
- k) Quarterly sampling and testing of piezometers and effluent system water.

In general:

- c) Staff induction prior to or at commencement of employment
- d) Regular staff meetings
- e) Use of Safety Data Sheets (SDS) information
- f) Saleyard advisory meetings
- g) Annual internal environmental compliance audit

10. INVENTORY OF POLLUTANTS

POLLUTANT	TYPE	MAXIMUM QUANTITY	LOCATION
Nulon coolant	Chemical	5 Litres	Workshop
Hi Tec long life coolant concentrate	Chemical	40 Litres	Workshop
Dobatex water based detergent	Cleaner	20 Litre	Workshop
Fleetpro universal tractor transmission oil SAE 10W-30	Oil/lubricant	20 Litres	Workshop
CNH industrial premium hydraulic oil	Oil/lubricant	20 Litres	Workshop
Gulf Western Oil longlife concentrated coolant	Oil/lubricant	20 Litres	Workshop
Tricleanum graffiti remover	Cleaner	0.75 Litres	Workshop
SAE 15W-40 engine oil super	Oil/lubricant	20 Litres	Workshop
Gulf Western Oil ultra clear gear oil full syn 80W-90	Oil/lubricant	20 Litres	Workshop
The cleaning house citrus 3D dishwashing detergent concentrate	Cleaner	5 Litres	Workshop
Oil plus hand cleaner	Cleaner	5 Litres	Workshop
New Holland Universal transmission oil premium	Oil/lubricant	20 Litres	Workshop
Caltex Delo 400 MGX SAE 15W-40	Oil/lubricant	40 Litres	Workshop
Caltex Rando HD Premium anti-wear hydraulic fluid	Oil/lubricant	60 Litres	Workshop

POLLUTANT	TYPE	MAXIMUM QUANTITY	LOCATION
Kawasaki SAE 10W-40 4-stroke engine oil	Oil/lubricant	4 Litres	Workshop
Briggs & Stratton heavy duty 4-stroke engine oil	Oil/lubricant	5 Litres	Workshop
Caltex Delo 400 multigrade SAE 15W-40	Oil/lubricant	5 Litres	Workshop
Stihl HP Ultra	Oil/lubricant	5 Litres	Workshop
Chemtech CT18 superwash concentrated multipurpose cleaning gel	Cleaner	5 Litres	Workshop
Castrol antifreeze anti boil coolant concentrate	Oil/lubricant	2.5 Litres	Workshop
Burson brake fluid Dot 4	Oil/lubricant	1 Litres	Workshop
Texamatic 1888 automatic transmission fluid	Chemical	1 Litres	Workshop
Repco brake fluid Dot 4	Chemical	0.5 Litres	Workshop
Ultra colour survey marking paint	Paint	1.75 Kilograms	Workshop
Unleaded petrol	Flammable liquid	90 Litres	Workshop
Bulk Diesel	Flammable liquid	1,000 Litres	Mobile (Ute)
Ditrac Blox rodenticide	Poison	8 Kilograms	Chemical Store
Farmoz 2, 4-D Amine 625	Chemical	20 Litres	Chemical Store

POLLUTANT	TYPE	MAXIMUM QUANTITY	LOCATION
Plumma's red prime	Chemical	0.25 Litres	Chemical Store
Pluma's Pro type P PVC pipe cement	Chemical	0.5 Litres	Chemical Store
Plumma's green glue	Chemical	0.25 Litres	Chemical Store
Plumtec Pro PVC priming fluid	Chemical	0.5 Litres	Chemical Store
iO Jet away	Chemical	5 Litres	Chemical Store
Elanco extinosad	Chemical	10 Litres	Chemical Store
Cydectin oral drench	Chemical	5 Litres	Chemical Store
Chlorodex farm disinfectant	Chemical	5 Litres	Chemical Store
Herbicide liquid	Herbicide	5 Litres	Chemical Store
Apparent Red vegetable die marker	Chemical	1 Litres	Chemical Store
Apparent bow saw 600 (metsulfuron)	Herbicide	0.5 Kilogram	Chemical Store
Apparent Clopyralid 300	Herbicide	10 Litres	Chemical Store
Apparent Dicamba 500	Herbicide	10 Litres	Chemical Store
Hammer	Herbicide	1 Litres	Chemical Store
Apparent Rhodamine Marker 150	Herbicide	10 Litres	Chemical Store
Kenso Ken-met 600 water dispersible granule	Herbicide	0.5 Kilograms	Chemical Store

POLLUTANT	TYPE	MAXIMUM QUANTITY	LOCATION
Clik extra spray-on sheep blowfly treatment	Chemical	5 Litres	Chemical Store
iO Chlorodet farm disinfectant	Chemical	20 Litres	Chemical Store
Apparent MCP A750 selective herbicide	Herbicide	60 Litres	Chemical Store
Apparent Machete 500	Herbicide	20 Litres	Chemical Store
Apparent Woody	Herbicide	40 Litres	Chemical Store
Conquest Hatchet	Herbicide	20 Litres	Chemical Store
Syngenta Gramoxone 360 Pro	Herbicide	20 Litres	Chemical Store
Apparent Diuron 900	Herbicide	15 Kilograms	Chemical Store
Apparent spray grade ammonium sulphate 980 e	Herbicide	25 Kilograms	Chemical Store
Apparent Concussion 540	Herbicide	20 Litres	Chemical Store

11. SAFETY EQUIPMENT

Safety equipment provided on the site includes:

- Spill kits
- Fire extinguishers
- Fire blankets
- First aide equipment
- SDS's to be kept in the maintenance and administration office
- Dangerous goods manifest to be kept in the maintenance shed and administration building, where required.
- PPE to be available in the maintenance shed and administration building

12. COMMUNICATING WITH NEIGHBOURS AND THE LOCAL COMMUNITY

The nature and type of potential pollutant incidents for this site are limited, however if an environmental incident on site is likely to impact neighbouring businesses or the local community, surrounding neighbours will usually be contacted either by phone, SMS, email, door knocking or through information left at the place of residence by a CTLX representative to notify them of a situation.

Communication methods will be used on a case-by-case basis, but in all situations, CTLX will attempt to notify those neighbours likely to be directly affected as soon as possible.

Ongoing communications with the neighbouring businesses/residents will be maintained until such time as the incident is rectified.

IMMEDIATE NEIGHBOUR	ADDRESS	CONTACT DETAILS
Neighbour 1	55 HAHN ROAD CARCOAR 2791	n/a
Neighbour 2	57 HAHN ROAD CARCOAR 2791	n/a
Neighbour 3	4946 MID WESTERN HIGHWAY CARCOAR 2791	n/a
Neighbour 4	4822 MID WESTERN HIGHWAY CARCOAR 2791	n/a
Neighbour 5	4829 MID WESTERN HIGHWAY CARCOAR 2791	n/a

13. MINIMISING HARM TO PERSONS ON THE PREMISES

Should a pollution incident occur, it must be immediately reported to the Business Manager (or Assistant Manager in their absence) who will assess the incident and the likely impact on persons on the premises. If appropriate, the Business Manager (or Assistant Manager) shall initiate a site evacuation utilising the public address system.

14. MAPS

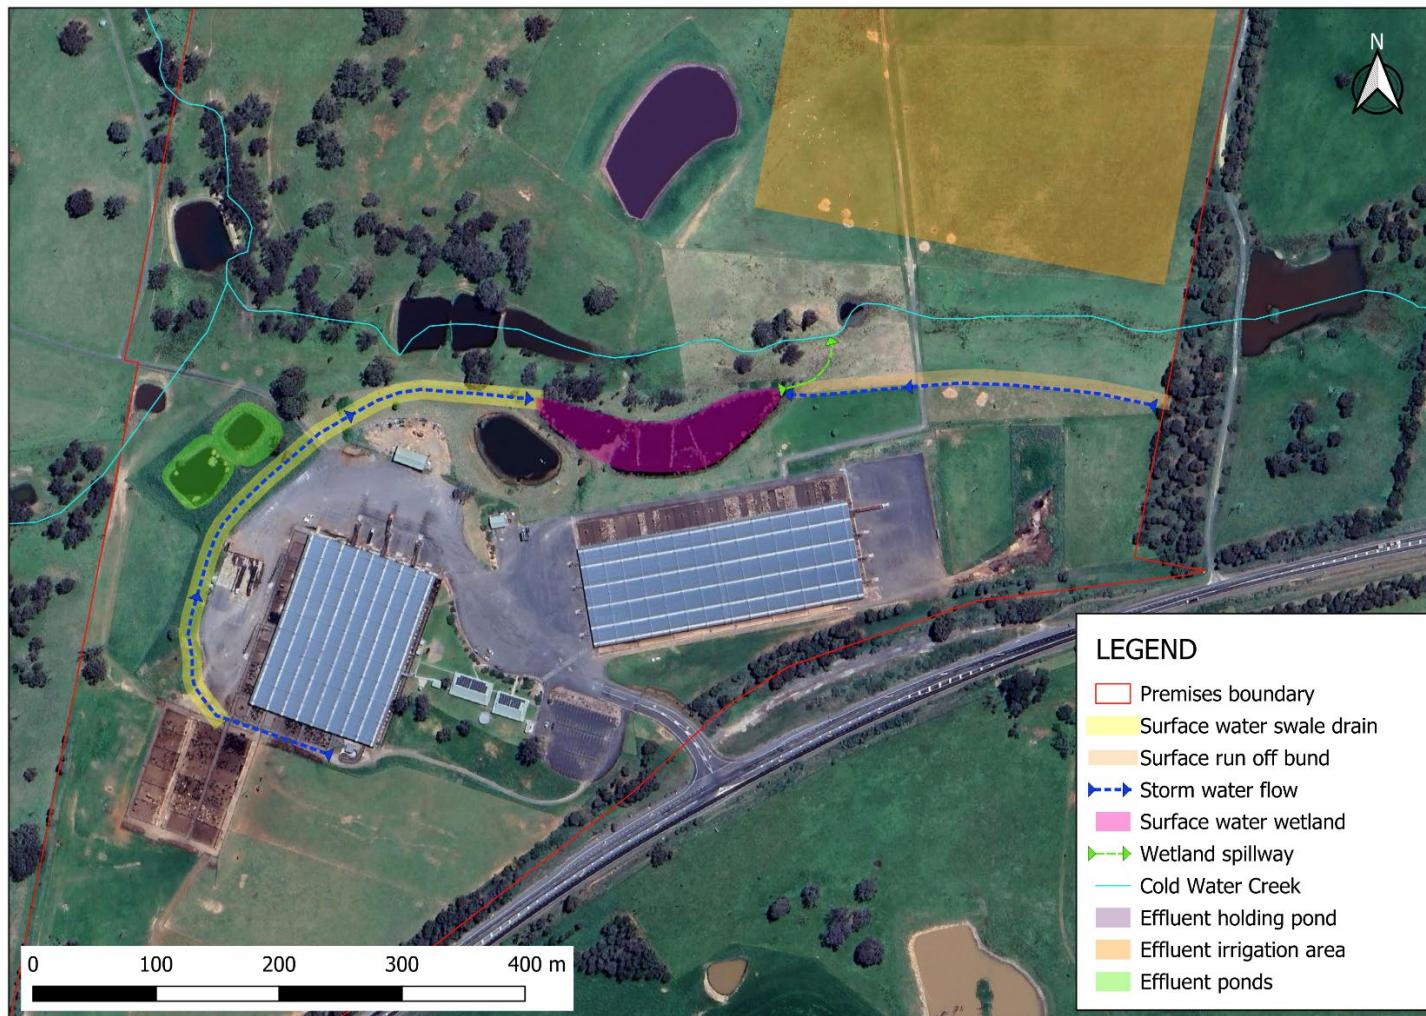

Figure 2 – Premises overview

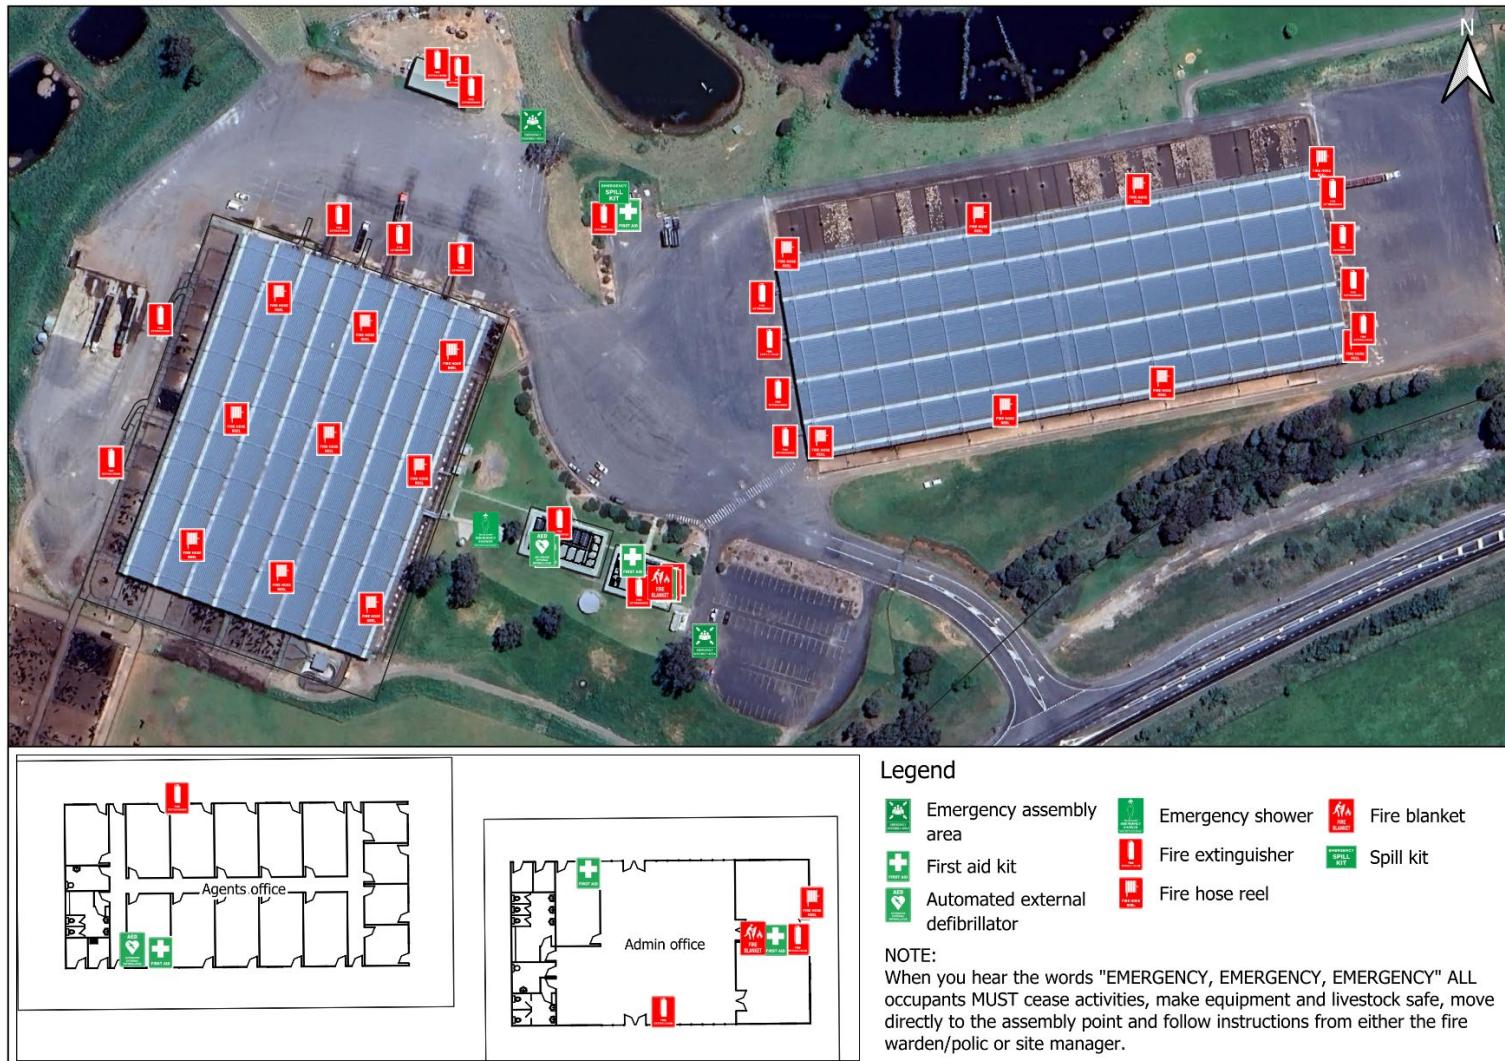

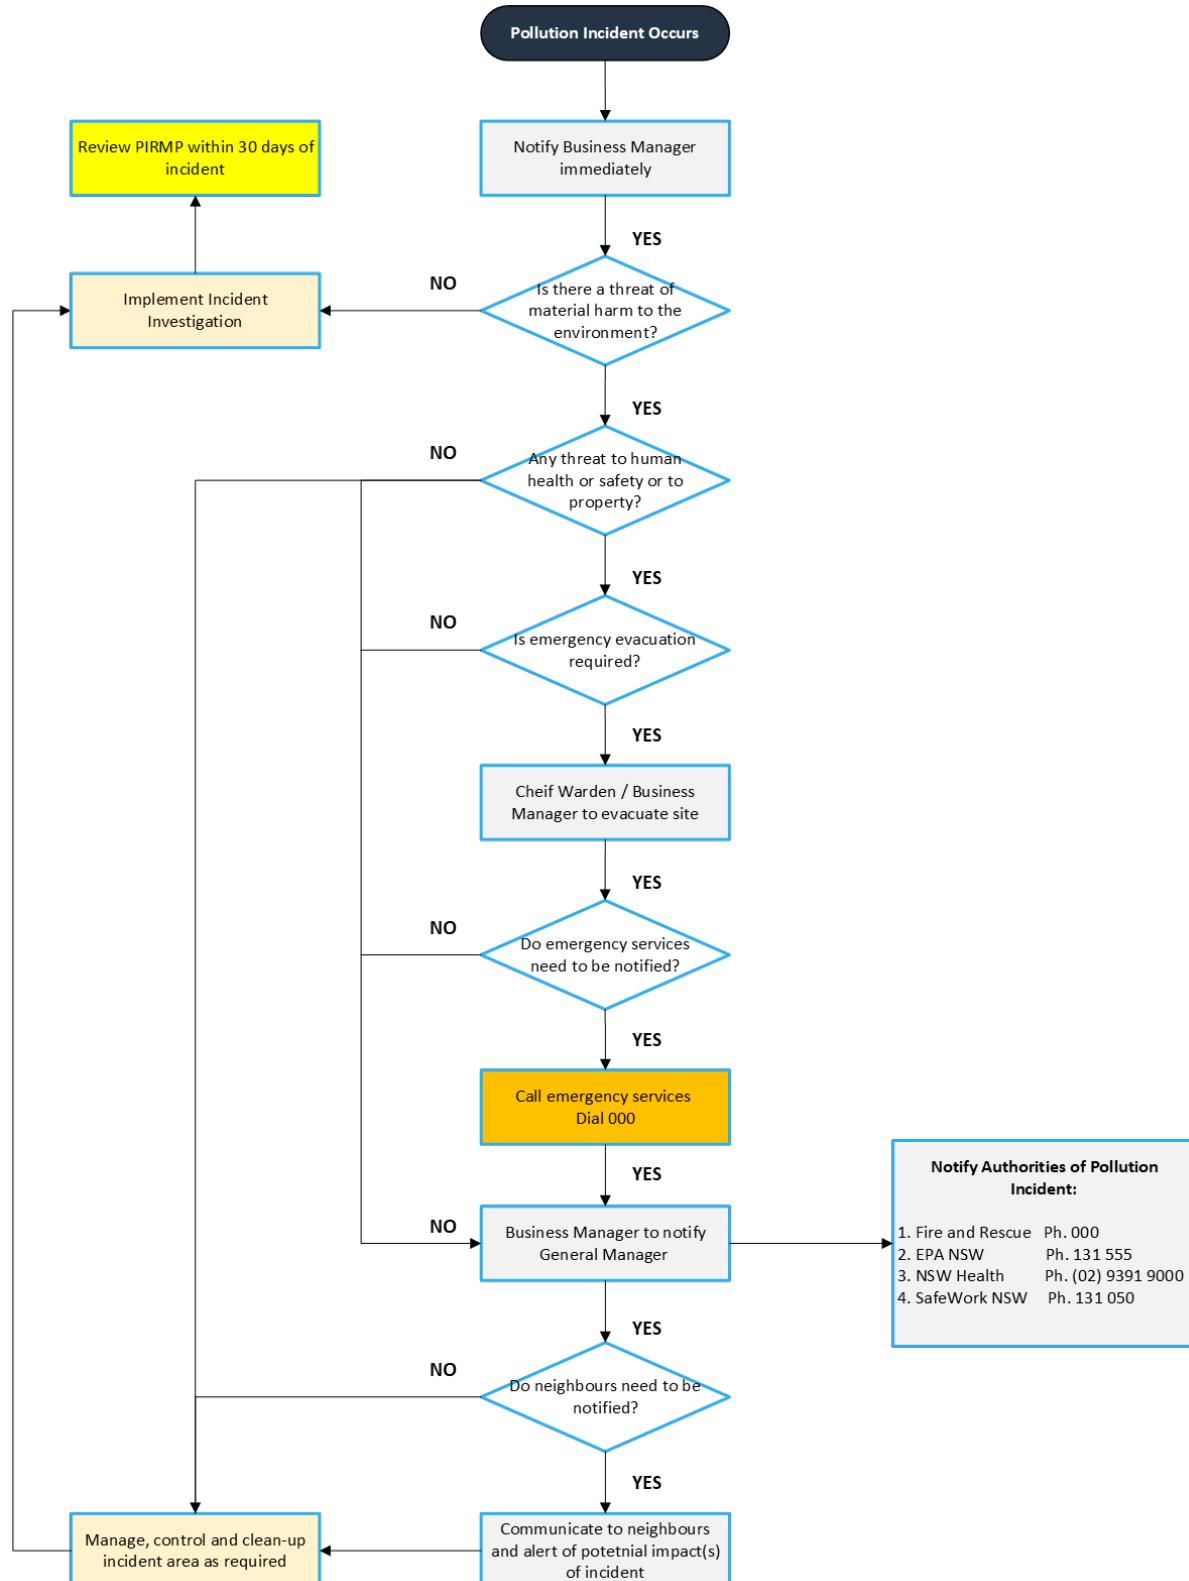

Figure 4 - Safety and pollution response equipment location

15. ACTIONS TO BE TAKEN DURING OR IMMEDIATELY AFTER A POLLUTION INCIDENT

16. COORDINATING WITH PERSONS AND AUTHORITIES

All staff must notify the Business Manager, immediately after the person becomes aware of a pollution incident. The Business Manager will notify the General Manager in accordance with the RLX Hazard and Incident Reporting Procedure.

If the pollution incident presents a risk of 'material harm to the environment' the General Manager (or delegate) will immediately notify the relevant Authorities after being notified or otherwise becoming aware of the pollution incident.

The following information shall also be provided to the relevant Authorities:

- a) The time, date, nature, duration and location of the incident,
- b) The location of the place where pollution is occurring or is likely to occur,
- c) The nature, the estimated quantity or volume and the concentration of any pollutants involved, if known,
- d) The circumstances in which the incident occurred (including the cause of the incident, if known),
- e) The action taken or proposed to be taken to deal with the incident and any resulting pollution or threatened pollution, if known,
- f) Other information prescribed by the regulations.

17. STAFF TRAINING

All staff affected by the content of this document will receive instruction or explanation on the relevant sections or requirements of the document.

18. TESTING AND UPDATING OF THE PIRMP

The PIRMP shall be tested once every 12 months and within one month of any pollution incident occurring. The objective of testing is to assess whether the information included in the PIRMP is accurate, current and is capable of being implemented in a workable and effective manner.

The routine testing will be performed as a desktop exercise and the name of the person(s) carrying out the test will be recorded in the PIRMP test report below. If the PIRMP is updated the date and details on amendments to the plan shall also be recorded.

PIRMP TEST RECORD

DATE	PERSONNEL INVOLVED	ASPECTS TESTED	TEST FINDINGS

PIRMP DOCUMENT REVIEW RECORD

REVIEW DATE	DETAILS	AUTHOR
17/07/2023	Revision of key contacts	Cameron Clode
16/06/2024	Update contacts	Steven Fox
2/07/2025	Complete document rewrite including contacts, maps and pollutant inventory	Steven Fox
